the levels of carbon dioxide in the Earth's atmosphere, which have now reached levels never before seen on Earth.

5.4 Threats to Biodiversity - Environmental Biology

CHAPTER 2 Biodiversity Kevin J. Gaston Biological diversity or biodiversity (the latter term is simply a contraction of the former) is the variety of life, in all of its many manifestations. It is a broad unifying concept, encompassing all forms, levels and combinations of natural variation, at all levels of biological organization (Gaston and Spicer 2004).
