Third Grade Thinkers. Sunday, June 9, 2019. Science: A Soil Study-Layers of Soil. I love "digging" into content area studies. My science block is only 30 minutes and I often need to reserve that time for experimenting and hands on learning. Many times my solution is to slide science reading into my language arts block as a way to get it all in and give my students more exposure to informational reading.

Third Grade Thinkers: Science: A Soil Study-Layers of Soil

Minerals, Rocks, and Soil. Earth is made up various living and nonliving materials. Elements form minerals, and minerals form rocks. Different rock types - igneous, sedimentary, and metamorphic - transform at various points in the rock cycle. Through the processes of weathering and erosion, rocks change, break, and move.
