The theory of architecture : concepts, themes & practices ...

Creating and developing architectural concepts is something a lot of students and indeed many architects struggle with. This may be due to project pressures, writers block, limited inspiration, or just the fact that for many students their architecture schools particularly in the first couple of

years, don't teach and stress the importance of them. As we discuss here in " How to develop an architecture concept ", the best conceptual approaches should always aim to provide the backbone ...

The Theory of Architecture : Concepts Themes & Practices

Design & Theory Concepts Architecture is the art and science of designing buildings. The practice of architecture includes design from the macro-level of the total built environment (civic centers, subdivisions, urban planning and landscape design) to the micro-level of furniture and product design.

Design & Theory - Kreate Architecture

Architectural determinism (also sometimes referred to as environmental determinism though that term has a broader meaning) is a theory employed in urbanism, sociology and environmental psychology which claims the built environment is the chief or even sole determinant of social behaviour. A. S. Baum defines the notion thus "In its most extreme form, this position argues that the environment ...

Architectural determinism - Wikipedia

Architectural theory is the act of thinking, discussing, and writing about architecture. Architectural theory is taught in all architecture schools and is practiced by the world's leading architects. Some forms that architecture theory takes are the lecture or dialogue, the treatise or book, and the paper project or competition entry.
